

29 MAR 1965

MEMORANDUM FOR: Director of Security

SUBJECT : Pending Legislation, H. Res. 113

1. There is an Agency security interest in the referenced pending House Resolution. However, no action by the Office of Security is recommended at this time.
2. The Resolution is to name a special committee to the House to investigate and report on its security measures. Because of the frequent appearances of the DCI and other representatives of this Agency before various Congressional committees, the Agency would be favorably concerned with any moves towards establishing good security facilities, procedures, and practices.
3. Consideration has been given to the possibility of an offer by this Agency to give assistance to such a House Security Committee, should the Resolution be adopted. It is felt, however, that this should await action on the Resolution and a specific request from such a committee.
4. We will follow the House action on this Resolution with interest.
